Interesting Facts

- The first patent for a safety razor with disposable blades was awarded in 1904 to King Camp Gillette.
- Specialized ultra-violet lasers, like those used for LASIK eye surgery, can create incisions measuring just 250 nanometers - 200 times thinner than a human hair.
- The sharpest object ever created is a probing tool for a scanning electron microscope. Its probing needle, made of tungsten, narrows to just one atom wide.

FEATURED Products

VANTAGE 4MM

Fulton Vantage

The Fulton Vantage hydronic condensing boilers have been engineered to provide the highest thermal efficiencies possible. The large heating surface and burner turndown capabilities provide efficiencies up to 99%.

The high mass, welded construction of the Vantage heat exchangers combine ultra high efficiency and worry free operation. The condensing section is constructed of Duplex Stainless Steel which has low thermal expansion rates and superior resistance to condensate and chloride stress corrosion.

FEATURES

- » Up to 99% Efficiency
- » No Min Return Water Temperature
- » No Min/Max Flow Rates
- » Linkageless Modulation
- » 5:1 Turndown
- » 160 PSI MWP
- » 250°F MWT
- » 170° Max ΔT
- » Dual Fuel Capabilities
 - Nat Gas / #2 Fuel Oil
 - Nat Gas / Propane
- » Sizes - 2000, 3000 & 4000 MBH
- » [Click Here for More Info](#)
