

SERVICE TRAINING

Ryan Company will be holding technical service seminars here in our territory for Fulton Vantage and Pulse boilers. These seminars are designed for field service technicians. They will provide them with valuable training to perform factory authorized startups, boiler service and preventative maintenance.

Topics of discussion will include installation, operation, controls, maintenance and troubleshooting. Training will last roughly four hours and a box lunch will be provided. Tuition is \$275 per person per class.

- 1-1/2 hours of classroom training
- 2-1/2 hours of hands-on training
- Lunch provided before, after or midway depending on training session.

There is a limit of 8 persons per class. Openings will be filled on a first come first served basis. You must RSVP by Dec 3. Email or call Brett today!

Email: brett@ryancompanyinc.com

Phone: 952-915-6475

You must bring the following items with you to class.

- Combustion Analyzer (calibrated with working battery)
- Manometer (2 recommended)
- Voltage Meter

It is strongly recommended that you review the Pulse & Vantage IOM's prior to class so you will better understand the procedures. Both manuals can be found on our website at www.ryancompanyinc.com under the Documents link on the left.
