Interesting Facts

- 9 Volt batteries actually have (6) 1.5v cells inside the casing.
- The coldest place in the universe is the Boomerang Nebula - A cloud of gas and dust blown away from a star. (1 Kelvin or -457.6 degrees F)
- The Grand Coulee Dam has enough concrete in it to lay a 16ft highway from NY to Seattle to LA and back to NY.

Taken from Modern Marvels on the History Channel.

Feb Dates to Remember

- Feb 2 - Groundhog Day
- Feb 12 - ASHRAE Meeting
- Feb 14 - Valentine's Day 
- Feb 20 - ASPE Meeting

FEATURED Products

A Good Thing Got Bigger

600,000, 700,000 & 800,000 BTU/Hr Input

Lochinvar Knight boilers will have three larger sizes to choose from. These new sizes are scheduled for production in February. They will have the same great features as the smaller Knights including the SMART SYSTEM controller which has the following built-in functions.

- » **2-Line 16-Character Display (setup & diagnostic info in real words, not codes)**
- » **Password Security**
- » **Freeze Protection**
- » **Outdoor Reset**
- » **Night Setback**
- » **0-10VDC BMS Input**
- » **3 Pump Control (Boiler, System & DHW)**
- » **Built-in Cascading Sequencer (Controls up to 8 boilers without using a third party controller)**

Lochinvar VIP Contractor Program

Lochinvar's VIP Contractor Program rewards enrolled contractors for purchases of the Knight Heating Boiler.

To help connect VIP contractors with potential customers, Lochinvar invites members to submit an enhanced profile with company information for free at www.knightheatingboiler.com.

Lochinvar also provides advertising, direct mail and other support materials to help members increase their sales of the Knight boiler.

Through April 2008, contractors also have the opportunity to compete on a monthly basis to showcase their recent Knight installations by submitting them on the VIP Connection at www.lochinvar.com/vip. Gift cards will be awarded each month and the grand prize winner can choose from a KBN/WBN80 or a Dell laptop computer.

Contractors are also entered to win Lochinvar's Nashville Experience with each registered purchase of a Knight boiler. This year, six winners and their guests will enjoy an all expenses paid trip to Nashville for a NASCAR Busch Series race or an Indy Car race.

Finally, to keep VIP contractors in the loop throughout the year, members are the first to know about new products, new VIP Program incentives, exciting featured jobs, service updates, training opportunities and more through the new monthly Knightly Newsletter and other correspondence from Lochinvar.

2008 Training Courses

Below are training courses at our factory locations.

Featured Job

Holiday Inn Express - Bloomington

Recently, Holiday Inn was having some major problems with their AO Smith Water Heaters. The local rep was not helpful and the factory could not fix the problem. So they replaced them with 3 Lochinvar Armor units each having 500,000 BTU/Hr Input. They are being used with (5) 200 gallon storage tanks to provide domestic hot water for the entire facility.

Thermal Technologies of Maple Grove did the installation. Jacob Emmings, Service Technician, said "These are awesome. I had them working right out of the box."

When asked what he thought of the new Armors, Brent Rehm, Chief Engineer - Holiday Inn stated, "They just work. No Problems. We love them."

Lochinvar Armor water heaters are high efficiency (up to 98%) condensing units ranging in size from 150,000 to 500,000 BTU/Hr Input. All units have as standard 5:1 turndown, PVC venting capability, stainless steel heat exchanger & the Smart System Controller. Same great controller as the Knights and Power-Fins.
